#### INTRODUCTION OF PEHEJA BV

By the growing demand for re-usable dual controls for driving school, Peheja BV has invented In the 1980s the universal cable dual control system. With an universal base unit and vehicle specific steel supplements on to which the pedal pulleys of the driver's side and the dual control system on the passenger side is mounted. Through the innovative unique concept and high quality we have grown into an international operating company and became the world market leader in developing, manufacturing and applying universal cable dual controls. Throughout the flexibility of our cable system the cables can be mounted through the enti-

re cabin and even though the engine compartment. The installation of the system requires just minor damage because of the cables can be laid across the vehicle.

#### DUAL CONTROLS

The unique concept of the Peheja® cable dual control system is based on a universal base unit and specially developed steel supplements & brackets the damage to your vehicle is minimal and you will experience a safe and reliable feeling.

universal cable dual control system

#### TÜV TESTED

The Peheja® system & company are tested by TÜV Automotive Germany regularly.

#### DOUBLE DUAL CONTROLS

Due to the flexibility of the Peheja® system, even two dual controls can be mounted on a truck one dual control for the driving school instructor and one for the examiner.

#### DRIVING SCHOOL MIRRORS

Special for the driving school truck Peheja® has made original truck mirror sets. These extra truck mirrors are mounted below the original mirrors and provide a lot of extra visibility for the instructor.

#### CONVOY EXCEPTIONAL

Special for the Convoy exceptional trucks Peheja has made extra truck mirrors sets so that the driver also has visibility next to his wide load. The extra mirrors are heated and easy to dismount.

#### AVAILABLE WORLDWIDE

The Peheja® system is available worldwide through our dealer network or directly from the Peheja factory. For more information, visit our website [www.peheja.com](http://www.peheja.com).
